

We are the Division dedicated to the PayMaster sector. For over 30 years, the DH GROUP has been providing a personalized PAYMASTER service worldwide. [www.dhgroup-international.com/paymaster](http://www.dhgroup-international.com/paymaster)

The main purpose of a PayMaster is to receive money as collateral as commissions for brokers in a transaction or as payment from buyers or investors or partners as collateral for sellers.

When it comes to commission payments on contracts that deal in large amounts of money (such as oil, gas, steel, iron, gold, MTN, VG, T-Strip and other instruments), most banks in the world are very cautious about dealing in such large amounts of money. In addition, most buyers and sellers of such transactions wish to deposit funds with a neutral third party. In most cases, the buyer and seller involved in the transaction require a PayMaster to be appointed to handle all incoming and outgoing funds.

After providing the DH PAYMASTER service to customers in Europe for five years, TDHI has its Division since 2020. The main purpose of our Division is to make the service even faster and less expensive, as well as lowering the minimum value to be competitive and interesting.

Contact the International Secretariat or the General Manager Dr Magri, explain your needs and you will receive an answer and, if possible, a proposal with times, costs and methods.

In the spirit of TDHI, we are concrete and professional. We recommend that you ask or propose a confidentiality agreement before providing sensitive and confidential information. In any case, you will be sent our confidentiality agreement if the dialogue continues.

■

As always, our advice is to write to us, to present your company or to write us what your goals or desires are. The TDHI HUB Division will make a first analysis, and will send it to our General Manager Dr Magri and to you in copy
