

european showroom
TDHI

The showrooms are often multi-brand; they are created to present the available brands, constantly putting them in competition because they are multi-brand showrooms to reduce costs.

The more modern versions of the showrooms and presenting the lines try to sell the products directly to customers (final transfer, not production order commission) on behalf of the companies.

The showrooms that we design, furnish them and set up them (unique worldwide proposals, including Italy with payment up to 24 months) with customized projects for the customer, we constantly train the staff to present the brands, increasing their visibility and the companies represented, sell their products through the showroom to end-users, research retailers and distributors in the country, and create events within them to create prestige for the brands represented.

Do you want to have a showroom in Europe with 75% fewer costs?

Do you want to have your showroom in Europe with a very low fixed cost and a variable cost linked to the results obtained?

Have you always wanted a showroom in Europe, and you have never done it and are afraid of the necessary requisites?

This project is the solution you have been waiting for.

■

As with all TDHI Group Companies and Divisions, write what you are looking for or what you need. The TDHI HUB Division will make the first analysis and send it to our General manager Dr Magri and you in copy.
